

**REGISTRANT CERTIFICATION
OF HEAVYWEIGHT VEHICLE**

This certification is required when registering trucks that weigh at least 44,801 lbs. This requirement applies to vehicles registered in the Agricultural (AGR), Commercial (COM), Commercial Household Carrier (CHC), Tractor (TRC) and Apportioned (IRP) classes.

I certify that the following information is correct with respect to the construction of the vehicle being registered:

Vehicle Identification Number
Number of axles
Wheelbase* _____ Feet _____ Inches

*Wheelbase is the distance from the center of the frontmost axle to the center of the rearmost axle. Wheelbase is not required for 2-axle trucks.

IMPORTANT

As authorized by regulations of the Commissioner of Motor Vehicles, making a false statement in connection with any registration application can result in the revocation or suspension of your registration.
